## Weak admin

### 50

By Aerex

I hate leet and these CTFs but admin loves it. Once i texted him "good morning" and he replied "y34h g00d m0rn1ng!!". What's wrong with these people why can't they just speak simple instead **leet**. Anyways i have stolen a secret file from admin's computer out of anger but i don't know what to do with it since i changed my job. Good luck!!

## STEP BY STEP SOLUTION

We find that the secret file requires a password in order to open it. And since the admin likes leet, an educated guess would be to try "4dm1n" and as it turns out that is indeed the password.

On opening the file we find the flag right in front of us:

**FLAG: IDC{y34h\_1\_4m\_4dm1n}**
