Unlock Hint for 15 points

STEP BY STEP SOLUTION

The encrypted text screams that it is encrypted using a substitution cipher. Roman emperor clearly points to Caesar Cipher. Let's brute-force it using dcode. <<https://www.dcode.fr/caesar-cipher>>.

ABCDEFGHIJKLMNOPQRSTUVWXYZ are tested and sorted from most probable to least probable.

↑↓	↑↓
→17 (↔9)	IDC{B3lIeV3_Me_C4e5Ar_s4id_tHi5} .
	EZY{X3hEaR3_Ia_Y4a5Wn_o4ez_pDe5}

And we got the flag. The encryption used was ROT17 Caesar Cipher.

FLAG: IDC{B3lIeV3_Me_C4e5Ar_s4id_tHi5}
